CAREERS IN CONSTRUCTION month

Social Media Kit
Careers in Construction Month is an annual month-long celebration of craft professionals and the many opportunities in the construction industry.

Every October, organizations around the country work together to raise awareness of the rewarding careers in construction.

During #CICM, we highlight the skilled men and women who build America, provide information and resources for educators and industry representatives, and inspire the youth of today to choose a rewarding career as a craft professional.

During October, promote construction careers on social media.
- Use the hashtags #CICM and #CareersInConstruction in posts.
- Share posts, images, articles and videos about why construction is a rewarding career path. Check out byf.org for engaging resources to share.
- Highlight successful craft professionals from your organization.
- Showcase different types of careers in construction and why current professionals enjoy their work.
- Explain to parents why their children should explore craft training.
- Describe ways to become a craft professional.

Key Messages:
- Construction is more than a job – it’s a career.
- Craft skills are in-demand nationwide.
- Careers in construction offer financial freedom through high salaries and affordable education options.
- The industry is safer thanks to improved regulations and technology.
- A career as a craft professional is dignified and requires high skills.
- The industry is inclusive and welcoming to everyone.
- Construction is essential.
