

Objective: Help your students get started with CareerStarter—a free platform that allows them to explore careers in construction, begin building their resumes, and prepare for future job and apprenticeship opportunities.

Instructions:

1. Go to app.skillhero.works/careerstarter-signup-organization to create your account.
2. Click “Sign up now” and enter your school’s information to create your organization account.
3. Once your account is created, you’ll have access to CareerStarter.

Next Steps: Use the [How to Add Individuals to Your School Account on CareerStarter](#) handout for instructions on how to find your unique student signup link. Share this link with your students so they can create their individual accounts.

Pro Tips

- ✓ **Explore the Platform First:** After creating your school account, take a few minutes to navigate the platform and familiarize yourself with its features before introducing it to students.
- ✓ **Plan Ahead:** Schedule time for students to create accounts during class to ensure everyone completes the step.
- ✓ **Check Tech Requirements:** Make sure students have access to devices and internet before starting.
- ✓ **Set Expectations:** Explain why CareerStarter is valuable, even if students aren’t ready for jobs yet.
- ✓ **Follow Up:** After account creation, plan a short reflection or discussion about career exploration.

Questions to Guide Your Planning

1. How do you see CareerStarter supporting your students’ career readiness?
2. Which features will be most valuable for freshman and sophomores?
3. Which features will be most valuable for juniors and seniors?
4. What challenges might students face when creating their accounts, and how can you help them?
5. How can you integrate CareerStarter into your classroom activities or career lessons?
6. What outcomes do you hope to see after students begin using CareerStarter?
